INTRODUCTION

Aseem Infrastructure Finance Limited ("AIFL" or the "Company") is registered with RBI as NBFC-IFC (Infrastructure Finance Company). This Investment Policy prescribes the policy for management of surplus funds so as to achieve optimal returns with due regard to management of liquidity for AIFL's lending activities.

The policy is subject to the laws of India, rules and regulations, circular and guidelines issued by the regulatory authorities like the RBI, SEBI, and such other central and local statutory bodies.

Scope & Authority

- The Company's investment activities will be guided by the RBI circulars, issued from time to time (base circular being Master Direction RBI/DoR/2023-24/106 dated October 19, 2023 – (NBFC – Scale Based Regulation) Directions, 2023) as well as the parameters laid down in this policy document. The aforementioned policy does not govern investments that fall within the scope of the DCM policy.
- A review of the Company's investment portfolio will be placed to the Board of Directors on a half-yearly basis.
- A review of the Company's investment portfolio, as of September 30 and March 31 respectively, will be placed at the first board meeting held immediately after the reference dates.

Extant Regulatory Guidelines

- All extant & future master circulars/directions/guidelines/guidance notes issued by Reserve Bank of India (RBI) from time to time would be the directing force for the risk governance framework of AIFL and will supersede the contents of this Investment policy.
- In case of any inconsistency between the provisions of law and this Policy, the provisions of the law shall prevail, and the Company shall abide by the applicable law. Further, in case there are any amendments in the applicable laws, guidelines, circulars ('Regulations') the Policy shall stand amended to align with the applicable amended Regulations.

Investment Objectives

- **Safety:** Safety of principal is the foremost objective of the investment program. Investments will be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio.

1. Investment Committee (IC)

As Treasury operations require frequent review, the powers for setting & reviewing strategies for the Treasury activities are vested with the Investment Committee.

The Investment Committee will consist of the following people:

- Chief Executive Officer
- Chief Financial Officer

- Chief Risk Officer
- Head Treasury
- The Scope of the IC is:
 - Provide overall guidance to the Treasury function
 - Powers to fix and vary limits within the delegated powers of this Policy.
 - Overall monitoring of the Treasury activities
 - Set and Review Strategies

The Investment Committee will meet whenever felt necessary. The quorum shall consist of any two members. Any agreements or documents with respect to investments approved by the IC can be executed jointly by any two IC Members.

Guidelines for Investments

As required by the RBI, all investments at the time of purchase will be categorized into any one of the following:

- Long Term
- Current
- There shall be no ad-hoc shifting of securities i.e. inter-class transfer to and from the Long Term and Current categories;
- Inter-class transfer, if warranted, shall be effected only at the beginning of each half year, i.e. on April 1 or October 1, with rationale and concurrence of the Investment Committee and subsequent approval of the Board;
- The investments shall be transferred scrip wise, from current to long term and vice versa, at book value or market value, whichever is lower;
- The depreciation, if any, in each scrip shall be fully provided for and appreciation, if any, will be ignored;
- The depreciation in one scrip shall not be set off against appreciation in any other scrip, at the time of such inter-class transfer, even in respect of scrips in the same category.

The Treasury will ensure that the RBI norms mentioned in the Master Direction RBI/DoR/2023-24/106 dated October 19, 2023 – (NBFC – Scale Based Regulation) Directions, 2023) or any amendments thereto from time to time, will be strictly adhered to.

2. Current and Long Term Investment Book Structure

For Asset and Liability Management as well as Risk Management purposes, the Treasury Book is divided into Current and Long Term Investment Management Books. The main characteristics of the Current and Long Term Books are given below:

Current Investment Book	Long Term Investment Book
Transactions to manage the short term funds with Treasury	Transactions to enhance holding period yields
Valuation as per FIMMDA guidelines	Accrual accounting

Intention to liquidate at short notice	Intention to hold for a longer period
Subject to Product / Issuer Limits	Subject to Product/issuer Limits
Generates Interest & Liquidity Risk	Generates Interest Rate Risk

3. Product Mandate & Investment Limits
